## MURDER SUSPECT HELD IN ADA JAIL

Roy Massengale Thought to  
be Implicated in Ok-  
mulgee Killing.

Roy Massengale, wanted at Okmulgee on a charge of murder for the part he is thought to have taken in the killing of Policeman Bob Burden, Monday night, is now in jail here, being held for orders from the Okmulgee county authorities.

Massengale was arrested Tuesday evening at the home of his father-in-law, six miles southwest of Stratford, by Officer Jim Broadbudd, who had trailed him from the scene of the crime. Four diamond rings, thought to be the property of Mrs. Jay R. Harrison, who, with her husband, was robbed in an Okmulgee garage a few minutes before the officer was murdered, were found in Massengale's coat pocket at the time of his arrest and Mr. Broadbudd is quite sure that he has captured one of the men who staged the robbery and killed the officer.

Massengale was taken to Sulphur and placed in the jail there for safe keeping. Tuesday night, and was transferred to the jail here yesterday. He will likely be kept here for several days, as sentiment in Okmulgee county is said to be at a dangerous stage against the murderers of the officer.

The prisoner was taken to a local studio this morning where a picture was made of him. He claims to be 30 years old but would not talk about the case at all.

It is said that Mr. Broadbudd took up Massengale's trail, out of Okmulgee, fifteen minutes after the shooting occurred, Monday night and followed it assiduously until he landed his man. He did not say what clue enabled him to pick out the correct route which led him to the little cabin six miles from Stratford.

At Seminole the officer expected the trail to end, but after talking with relatives of the fleeing man there and satisfying himself that he had not halted, Broadbudd continued to travel south, evidently not so many miles behind Massengale.

At Stratford the officer learned that Massengale had been in that city Tuesday afternoon and later discovered that he was at the home of his father-in-law. He went to the house just about dusk Tuesday evening with some other officers and after stationing the men around the house Broadbudd knocked at the door and commanded Massengale to come out with his hands up.

Seeing that he had no chance to escape, Massengale came forward as he had been commanded, and when the officers searched him, the rings, thought to be the property of the Okmulgee woman, were found in his coat pocket.

Broadbudd made the trip from Okmulgee in an auto, accompanied by Elmer Burd and Jess Burd. The trio left Ada on their return trip shortly before noon today. The prisoner will be kept in the jail here, until the Okmulgee officers come for him.

It is said that Massengale formerly lived in Pontotoc county, near Ada and several persons here are said to be acquainted with him.

## PREACHER SAYS WORLD IS GROWING WORSE

(By the Associated Press)  
GREENFIELD, Mo., May 19.—"The spiritual, social, business, and political life of the day has fallen prey to materialism and its attendant evils," the Rev. J. B. Courtney, retiring moderator of the Cumberland Presbyterian church told the general assembly of the denomination here today, with the warning that "the greatest need of the time is to find again the Bible, that has been lost."

The world war, the growing divorce, juvenile crime, crooked politics and questionable business methods is part of the price being paid for turning away from the teachings of the Bible," the moderator declared.

## "Lost" Radius Returned.

(By the Associated Press)  
OKLAHOMA CITY, May 19.—Two tubes of radium lost since May 3, when they were carried from the office of an Oklahoma medical firm by J. R. Dalton, a charity patient, were returned yesterday by mail, it was announced by the physicians today. The radium was valued at approximately thirty five hundred dollars. In a letter accompanying the tubes, Dalton said he did not know the value of the radium until he read an account of its loss in a newspaper and intended to bring it with him when he came for another treatment. The letter was mailed in Lawton, Okla., where Dalton is employed.

## Sinclair Resigns.

(By the Associated Press)  
NEW YORK, May 19.—H. F. Sinclair today resigned as president of the Sinclair consolidated oil corporation and was elected chairman of the board. His brother Earl W. Sinclair of Tulsa, was chosen president.

## THOUGHT TAFT WILL SUCCEED WHITE

Known That Harding Has  
Long Desired Him  
for Place.

(By the Associated Press)  
WASHINGTON, May 19.—The choice of a successor to Edward Douglass White as chief justice of the United States supreme court was one of the most widely discussed subjects today in official circles at the capitol. Although speculation centered chiefly about the name of former President William Howard Taft, there were many indications that President Harding was far from a decision and might find the selection a difficult one.

One of the first suggestions to come to the surface in private discussion of the subject among members of the Senate, which must confirm the nomination, was that Mr. Taft had disqualified himself by insisting when he was chief executive that no man over 60 years old should be appointed to the highest court. All indications pointed to considerable delay in making the appointment. The general impression was that nothing would be done prior to the re-convening of the court after its summer recess which begins June 6.

Mr. Taft is known to have been long under consideration by Mr. Harding as a possible chief justice. The former president several times had publicly declared that one of his greatest regrets was that fortune has cast his service in the executive and not the judicial branch of the government and many of his friends already have started to bring influence to bear to have him appointed to the vacancy of chief justiceship.

Another whose name had been linked repeatedly with the highest judicial post is Secretary Hughes of the state department, a member of the court until he retired in 1916 to accept the republican nomination for the presidency.

## FUNERAL OF THE CHIEF JUSTICE IS TO BE PRIVATE

(By the Associated Press)  
WASHINGTON, May 19.—Funeral services for the late Edward Douglass White, chief justice of the United States, who died early today at a hospital here, will be private, it was announced today. They will be held at ten a. m. Saturday at St. Mathews Catholic church, and will be conducted by the rector. Interment will be in Oak Hill cemetery, Georgetown.

Judges of the Supreme Court will act as honorary pall bearers and members of the cabinet and other high government officials will attend.

Justice McKenna, as senior associate member formally notified President Harding, vice president Coolidge and Speaker Gillette today of the death of Chief Justice White. Following the court's custom in such cases the news was sent in a letter inscribed upon black bordered parchment and enclosed in an envelope deeply edged in black.

## TWO NEW YORK BOMB SUSPECTS ARRESTED

(By the Associated Press)  
NEW YORK, May 19.—A federal warrant was issued today for Giuseppe de Filippo, Bayonne truckman, detained as a Wall street bomb plot suspect, charging him with having attempted to destroy the United States assay office.

The warrant was issued on complaint of Charles H. Scully, head of the department of justice headquarters in this city, who said De Filippo had been identified by several persons as the driver of the death cart, which figured in the explosion.

At the same time the police announced that Thomas Smith, retired fireman, who several weeks ago identified Tito Ligi, a Scranton suspect, who as a man he had been talking to the driver of the death cart, had told them De Filippo looked like the driver.

## POLISH FORCES ARE ORDERED TO LAY DOWN ARMS

(By the Associated Press)  
LONDON, May 19.—Information received in official circles states that the Polish council general at Beuthen has informed the inter-allied peace commission that Adalbert Korfanta, leader of the Polish outbreaks, has issued a proclamation to the people of upper Silesia to surrender their arms, resume work and avoid military contact with the Germans.

He declared also that ten thousand men have been demobilized.

## SENATE AND HOUSE REACH AGREEMENT

### Last Minute Telegraph

#### Crude Oil Drops Again.

(By the Associated Press)  
OKLAHOMA CITY, May 19.—Complete agreement on the institutional and departmental appropriation bills was reached this morning by senate and house conferees. It was announced shortly before noon by R. L. Davidson, chairman of the senate conference committee. Davidson said he was "certain all clerical work would be taken care of and the bills reported out in both houses by two o'clock this afternoon."

#### Killed in Auto Wreck

(By the Associated Press)  
DALLAS, Texas, May 19.—Harry M. Roach, a Kansas City business man, was instantly killed here today when his automobile struck a passenger train at a grade crossing. Thomas P. Hubbard of Dallas, the other occupant of the motor car, was severely injured.

#### Peace Resolution Soon

(By the Associated Press)  
WASHINGTON, May 19.—Chairman Porter of the house foreign affairs committee said after a conference today with President Harding that the chief executive hoped for adoption of a peace resolution by the house without unnecessary delay.

#### Biddle Appointed Warden

(By the Associated Press)  
WASHINGTON, May 19.—Appointment of William Biddle of Leavenworth, Kansas, to be warden of the federal penitentiary at that place, was announced today by attorney general Daugherty. Mr. Biddle has been for many years connected with prison work, having served two years as superintendent of the Kansas state institution.

#### THE LATEST GAG

A woman has named her twin daughters Gasoline and Kerosene Exchange. The old man's name is probably Pete Roleum.—Boston Commercial Bulletin.

We hope the babies will grow up a parafine girls.—Boston Herald. The man who marries into that family will strike oil. Cape Cod Item. But we fear that sporking in the immediate neighborhood of the girls in question will be a very dangerous pastime. Munsey's Weekly.

Of course they will be courted by lamplight. After marriage their husbands should not allow them to make the fire in the morning.—Philadelphia Press.

The reporter who perpetrated the above "twin" story hasn't benzine since—Makin Paper.

I guess that reporter was pretty hungry for a story but after he wrote "dis-ill-ate" his supper, if he didn't he was a damn "fuel."

## FRENCH PAPERS ARE VEXED AT GEORGE

#### (By the Associated Press)

PARIS, May 19.—Declaration made regarding Poland and Silesia by Premier Lloyd George of Great Britain yesterday caused considerable irritation to the French newspapers. There was little comment on the Premier's words this morning, but what there was seemed severe.

Pertinax, the political editor of the Echo de Paris, said regarding the statement of Mr. Lloyd George: "Please give us even less if possible than you did in the last speech before the House of Commons. The affair is too grave, henceforth to be treated as politics. There is no getting away from one fact—the entente codiale is at stake."

## Good Record Is Made During Past Month By Students of City

A very creditable record has been made by the Ada High school for the past nine months term and the teachers and students are well pleased with the showing made. The school has been larger than ever before and more activities have been undertaken than ever.

Music has been one of the leading side activities as a large percentage are fond of the different kinds of music, both instrumental and vocal. Athletics have also been of a higher plane this year and although the local teams were often defeated in score they are proud of their clean record and good sportsmanship.

There are many other side activities, including the band, orchestra, choruses, glee clubs, quintet, manual training, commercial and domestic arts and a number of others. All have been well given and the students have been greatly benefited by them.

During the past year a total of 359 students have been enrolled in the four classes, 47 of which are graduating this season. For this large number of teachers, with the many courses and subjects offered, the school has required 18 teachers, not including the principal. The freshman class shows the larger enrollment.

## NATIONS WILL BE ASKED TO REDUCE NAVY ARMAMENT

#### (By the Associated Press)

CHICAGO, May 19.—The congress on reduction of armament in session here today adopted a resolution asking President Harding to invite Great Britain and Japan to an immediate conference looking toward limitation of naval armament.

The congress pledged support by every possible means to a policy of armament reduction by agreement between the nations.

Reatives of Lane explained the unusual request by saying that he had spent much of his life in the Yosemite region and had grown to love it so much that he wished his remains to be taken there when he died.

Mr. Lane left no will and no estate.

journment.

## CHIEF JUSTICE WHITE IS DEAD

Death Follows Operation  
for Severe Case of  
Bladder Trouble.

(By the Associated Press)

WASHINGTON, May 19.—The death early today of Edward Douglass White, veteran chief justice of the United States, cast a shadow of sorrow today over the national capitol, where during his long years of service on the supreme bench he had grown in the administration and esteem not only of his official associates but of the entire community.

Although all hope for the chief justice's recovery following an operation last Friday had been abandoned, since he took a critical turn for the worse two days ago, the news of his death, which occurred at 2 o'clock this morning, came as a shock to friends and associates.

The chief justice, who was 76 years old, had enjoyed rugged health up to the time he was forced to submit to the recent operation for bladder trouble and his record for attendance on the supreme bench was traditional.

According to tentative funeral arrangements announced here, interment will take place here in Oak Hill cemetery following simple services under the Catholic ritual to be held at St. Mathews Church at 10 o'clock Saturday morning.

The body of the chief justice was removed to his local residence from the hospital where he died.

Chief Justice Edward Douglass White was, strictly speaking, the lone representative of the south on the Supreme Bench for a number of years.

Coming from a family of judges, his father and his grandfather before him having been on the bench, Chief Justice White had had a judicial inheritance as well as legal training. His knowledge of the civil law was generally regarded as the most profound of any man that ever sat on the bench of the Supreme Court of the United States. He developed a specialty for questions of interstate commerce, and his contribution to the law of the land probably will be a permanent one.

He was born in the parish of Lafourche, La., November 3, 1845. His parents were Catholics, and he was of that faith. His education was in Catholic institutions. In his early youth, he attended the school at Mount St. Mary's near Emmitsburg, Md., later he entered the Jesuit College in New Orleans, and finally he went to Georgetown College, of Washington, D. C.

Chief Justice White served in the Confederate Army during the Civil War; practiced law among the people of Louisiana and became a sugar planter on its lowlands. His ability and high character were recognized by the people in repeated commissions as a public official. In 1874, he was elected as senator in the Louisiana legislature. Four years later, he was appointed associate justice of the Supreme Court of the State.

In 1891 Mr. White became a national figure. A senatorial contest was waged in Louisiana, and he entered the race. He had managed the campaign of Governor Nichols for reelection and had been prominent in the reform element in Louisiana. He had fought vigorously in favor of the anti-lottery movement. The legislature finally chose him to succeed senator Eustis.

Chief Justice White was in the Senate three years before he was elevated to the bench of the Supreme Court of the United States by President Cleveland in 1894. During that period, he distinguished himself on two occasions. Once was in the debate on the Anti-Option Law, when Senator White made a profound legal argument against the constitutionality of the measure. The other occasion was during the struggle over the repeal of the Sherman Act, when he advocated the views of President Cleveland was known to entertain on the subject. His nomination to the bench ended a memorable contest in the Senate. Two New Yorkers had been nominated by President Cleveland, but both failed of confirmation. Throwing to the winds the custom for eighty-eight years had kept a New York man on the bench, Mr. Cleveland named Senator White. He was confirmed within an hour.

Almost as unusual as his appointment as associate justice was his elevation to the chief justiceship. In 1910, when President Taft besought by various factions of the Republican party to appoint first this man and then that to succeed Chief Justice Fuller, the president boldly disregarding the selection of justices from his own party and that precedent frowning on the promotion of an associate justice to the chief justiceship, and sent to the senate the nomination of Justice White. His nomination was confirmed immediately.

## In The Oil Fields

## Refinery Coming.

John P. Puckett, representing the Edmonds Oil Refining Co., of Fort Worth, Texas, is in the city in the interest of his company. It is understood that the Edmonds company is contemplating the erection of a refinery here to take care of the oil from this and the Francis and Allen fields.

## Takes Sample Home.

W. J. Burch, a prominent broker of Tulsa, returned to his home today, after visiting the discovery well and getting a sample of the oil to show his friends.

## Hotel Nearly Finished.

W. R. Maxwell and G. O. Steele will finish their hotel building on the new townsite near Bebe, by Saturday evening. The hotel is being built two stories and will have 16 bed rooms and a 14-foot by 20-foot lobby. The owners have had several offers from persons who desire to run the hotel, but have not rented it as yet.

## Two More Wells.

George Lowry returned to Muskogee at noon today to send his field superintendent to Burk Burnett to superintend the loading of tanks and rigs for two new wells, which will be drilled on the syndicate's acreage northwest of Ada. The locations have not been made but they will be in time to get the drilling started promptly on the arrival of the rigs.

## May Drill Hatcher Lease.

B. A. Laselle is in Burk Burnett loading a rotary rig which will likely be set up on the Hatcher lease in 4-4-5, where the newly organized Pontotoc Trust company expect to drill. This is a portion of the lease for which Mr. Lowry paid \$477 an acre. A number of local men are interested in the Pontotoc Trust company and their hopes are running high.

## 166 Barrels Per Day

Seven barrels an hour, or an average of 166 barrels per day is the rate at which the big well on the Burk farm in 32-5-5 is pouring oil testing 37 gravity into a tank today, and the owners of the well say they are not getting more than 50 percent of the oil they are entitled to.

The tubing was run yesterday and the test of the well was started at 8 o'clock this morning. Flowing by heads, at 5 minute intervals, the well has continued at the same rate since the flow started and it has not been necessary to use the pump to encourage it.

Owners of the well are greatly pleased with the showing made and announce that they will continue their original plans as to the drilling of the other wells in the field.

When the next well is drilled by the syndicate to go deeper into the sand and learn for sure what it is capable of producing.

## AUTOMOBILES

Interest in the car retail business has grown much in the past two months, many sales being reported by the various dealers. New agencies have been established and the car industry in this city is now on a more substantial basis than ever before.

The Ada Cadillac Co. is one of the latest agencies to be established here, having their headquarters in the Crandall garage building.

The Used Car Exchange with headquarters on West 12th street has only been opened for a short time. Used cars change hands quickly at this time and many sales have been made.

The Motor Sales Co., on East Main street now has a new manager, Mr. Wright of Ardmore, having taken charge this week.

Repair work in every garage in the city is very good at this time. All makes of tires are also being sold with a good market, adding to the improvement in the car business in Ada.

The F. A. Ford garage reports the sale of an Essex touring car to A. S. King of Electra, Texas. They have the latest type of Essex cars put out and the model now on display is a beauty.

Five Buicks recently delivered are reported by the Buick agency owned by Grant Irwin on Townsend and 12th. The cars sold were as follows: Ollie Lancaster, 7 passenger; Joe Thomas of Roff, 5 passenger; George Nance of Ada, roadster; John Roberts of Ada, 5 passenger; Joe Stafford of Ada, 5 passenger.

The Dodge Agency, located at the Ada Motor Co., on East Main street, reports a good business in both the sale of cars and repair work. The following deliveries have been made in the past few days, O. D. Roberts of Bebe, Jim Roddie of Bebe, J. E. Hanson of Ada, H. C. Roper of Ada, G. L. Wilfong of Bebe.

## Many Cars in State.

Oklahoma has more automobiles than any other state south of the Mason-Dixon line, with the exception of Texas, according to figures just assembled by the Timken company.

The tabulation shows that Oklahoma has 195,082 passenger cars and 9,218 trucks. Texas has 397,693 passenger cars and 30,000

news of  
American Legion

A hallowed mantle of the Grand Army of the Republic and the Confederate Veterans falls upon the young shoulders of the American Legion on Memorial day of this year. In virtually every city where the association of veterans of the civil war still exists the leaders of the fast dwindling band have called on the Legion to take the lead in the memorial services this year.

With medals on their breasts, clad in blue or gray, the white haired veterans of the civil war in past years have made the Memorial day round of school houses in addition to leading the march from church to cemetery. This year the Legion is asked to take the load from their shoulders.

In each of the 229 cities and towns where the Legion has a post Memorial day will be celebrated in a fitting manner in Oklahoma. Plans have been prepared by some posts

trucks. Passenger cars in other southern states are as follows:

Arkansas, 55,282; Louisiana, 59,400; Kentucky, 99,426; Tennessee, 90,214; Mississippi, 58,502; Alabama, 61,941; Georgia, 132,422; Florida, 63,466; South Carolina, 84,318; North Carolina 127,415, and Virginia, 101,800.

Oklahoma also ranks ahead of every western state except California, and has more automobiles than the eastern states of Maine, New Hampshire, Vermont, Connecticut, Rhode Island, Delaware, Maryland and West Virginia.

SPANIARDS DON'T  
USE THEIR FISTS

MADRID, May 19.—Spaniards do not understand boxing—and do not want to, judging from some of the comments in connection with the recent exhibition given by Carpenter in Madrid, where he reproduced with Leenaers as his boxing partner his bout against Battling Levinsky.

The Diario Universal says: When the great, incomparable, unique Carpenter entered the ring and noticed that there were not more than 200 spectators present, he was unable to refrain from a gesture of astonishment. Wherever he had exhibited previously the tickets had been sold out a fortnight before hand and in some cases special trains had been run for the accommodation of fans. The managers on this occasion must have suffered ruinously, for Carpenter's terms are high.

"The secret of this 'frost' is not far to seek. Spaniards do not use their fists. They prefer smacks. Fists hurt the adversary and, besides, it hurts one's hands to hit with them closed.

"We are a people of open hands and our anger shows itself more in words than in muscles. Should Spaniards come to blows, the necessary preliminaries are a long string of insults for the adversary and two or three generations of his ancestors. Then ensue a couple of smacks, after which the contestants embrace and hold each other so as to give time for the onlookers to separate them."

The newspaper concludes: "While boxing continues to be a fight with closed fists it will not catch on with us; but arrange a match with open hands and then we shall see a crowded gathering to witness it."

for more than a month. While memorial services are in progress the graves of American heroes in France will be decorated from funds subscribed by the Legion and the general public.

The first meeting of the state executive committee of the Oklahoma division of the women's Auxiliary of the American Legion was held in Oklahoma City on Wednesday, May 18, under the call issued by Mrs. Ada Pearce of Ardmore, state president. Plans for enlarging the women's organization were made.

The Legion's member of the state soldiers' relief commission established by the legislature to build soldier hospitals may be appointed by the state American Legion executive committee at a meeting to be called for next Sunday. Work of preparing for construction of the state hospitals is to be pushed with rapidity.

## Facts About the Counties

Each day some facts will be printed about an Oklahoma county in their alphabetical order.

Cleveland—Located south of the center of the state, it has a total area of 354,560 acres, 302,107 acres of which are in farms; 151,491 in cultivation and 149,424 in pasture. The principal crop is corn.

Cleveland county was formerly a part of the old Oklahoma territory.

MARINELLO  
Beauty Parlor

Shampoo Hair Dressing  
Facials and Scalp Treatments  
Ladies' and Gents'  
Manicuring  
TELEPHONE 1138  
ROLLOW BUILDING

It was organized in 1889 and county officers elected. The western part of the county is very level while the eastern is more hilly. The Canadian river forms the southwestern boundary. The northern portion is graded eastward through Little river.

It is one of the leading agricultural counties in the state. Stock raising is also carried on in connection with the farming industry. The principal crops are corn, wheat, oats, cotton, kafir and alfalfa. Water for both domestic and agricultural purposes are sufficient for the needs of people and crops.

The eastern part of the county is largely covered by a growth of black jack oak. In other respects it is found only along the streams. Transportation facilities are fairly adequate, the main line of the Santa Fe crossing the western part of the county. The county highways are on section lines and are generally kept in good condition.

Educational advantages are very adequate. Sixty-four schools are located in the county, with the University of Oklahoma at Norman.

The five-year average of rainfall is 32.88 inches.

The Fairfax Telephone exchange, H. S. Morgan, manager, has installed about 48 new telephone poles within the city limits since the first of the year and is planning to put in about 9,000 feet of new cable as

soon as the materials arrive from the factory.

ESTABLISHED 1903  
**SIMPSON'S**  
The GROCER  
115-117 WEST MAIN ST.

Heavy American tourist travel in Europe indicated for the summer. Good idea. It will cheer up American pessimists to find how much worse off the rest of the world is.

## ONE-PIECE SUIT IS SWIMMERS' CHOICE

**Art and Life**  
What thing a right line is, the learned know;  
But how avails that him, who in the right,  
Of life and manners doth desire to grow?  
What are all these human arts and lights  
But seas of error? in whose depths who sound,  
Of truth find only shadows, and no ground.  
Then if our arts want power to make us better,  
What fool will think they can us wiser make?  
Life is the wisdom; art is but the letter,  
Or shell, which men oft for the kernel take;  
In moods and figures molding up deceit,  
To make each science rather hard than great. —Lord Brooke.

## Banquet This Evening.

The High school Junior-Senior banquet will be held at the Elk's Club rooms this evening in honor of the graduating seniors, as an annual event in the school work.

Each year the members of these two classes gather for the purpose of entertaining the ones to depart from the school life and the plans for this one promise to make it one of the most elaborate and enjoyable in the school history.

Mrs. V. V. Rambor, mother of Mrs. T. H. Wyatt, who has been visiting here since last June, will leave the last of this month for Cleveland, Pa., where she will make her home with another daughter. She states that this will be her last long trip and that she regrets to leave Oklahoma, having improved much in health since coming here.

Mrs. M. J. Wyatt and daughter, Nettie, arrived in the city yesterday from Menlo, Ga., for a visit with their son and brother, T. H. Wyatt and family of 800 E. Eleventh st. Mrs. Wyatt is 75 years of age but stood the trip to this place well and is much pleased with the country here. Her daughter is interested in the oil excitement here and will investigate it before returning to her home in Georgia. She will probably buy some interest in the Ada field.

Miss Natalie Manville left yesterday afternoon for Oklahoma City where she will appear in a voice recital to be given by the pupils of Miss Kate Draper of that city. The recital will be given in the Lee Huckens Hotel tonight.

Miss Josephine Purvine, who has been teaching at Dewar, Okla., for the past school term, has returned to her home here for the summer, her school having closed this week.

Miss Alta Marsh, who has been teaching for the past term at Maysville, Okla., arrived in the city last night and will spend the summer with her parents here.

Mrs. Stellar Murray of near Konawa arrived in the city today to spend several days visiting her parents.

## Ellis Island Quarantined.

(By the Associated Press)

NEW YORK, May 19.—Ellis Island, through which the bulk of the country's emigration passes, today was placed under strict quarantine because of the death from typhus yesterday of a five year old Jugoslaw boy. The seventeen hundred emigrants were removed to the detention station at Hockman's Island.

NEW YORK, May 19.—Commissioner of emigration Wallace announced the Ellis Island station would not be reopened for 48 hours, during that time arriving immigrants will be held on the ships that bring them in.

Officials could not tell whether the boy contracted the disease on shipboard or at the station. His death was the first from typhus reported here for several weeks.

**Notice of Sale of Oil and Gas Lease.**  
State of Oklahoma.  
County of Pontotoc—ss:  
In the County Court  
No. 2093

Notice is hereby given in pursuance of an order of the County Court of Pontotoc County, State of Oklahoma, made and entered on the 16th day of May, 1921, the undersigned guardian will offer for sale and sell at public auction to the highest and best bidder an oil and gas mining lease on Saturday the 21st day of May, 1921, at 2 o'clock, p.m., the following described lands situated in Grady county, State of Oklahoma, to-wit:

The Northeast Quarter of the Northwest Quarter; Northwest Quarter of the Northeast Quarter; West half of the Northeast Quarter of the Northeast Quarter; Southeast Quarter of the Northeast Quarter; South Half of the Northeast Quarter; northeast Quarter of the Northwest Quarter; North Half of the Northeast Quarter of the Southeast Quarter of Section 35, Township 5 North, Range 7 West.

Said oil and gas lease will be sold on the following terms and conditions, to-wit:

At public sale for cash in hand subject to the confirmation of the court, sale to be for a cash bonus of not less than \$5.00 per acre.

Said sale to be held in the County Court room of Pontotoc County, Oklahoma, at the time above stated. Dated this 15th day of May, 1921.

MAY HUDDLESTON,  
Guardian of Frank Huddleston, Jr.,  
a Minor.

## ITALIAN SOLDIERS TAKE WOMEN'S JOBS

(By the Associated Press) ROME, May 2.—Italian soldiers who were more or less mutilated during the war lately have taken the law into their own hands and swarmed in thousands into many of the government ministries, taking possession by force of the places of the many young women who gained a footing there during the war, and so far have refused to be displaced. Newspapers are being flooded with letters, some few of them arguing that the women clerks have earned the right to work if they please, and to support themselves, but most of the writers telling lurid and terrible tales of the frivolity of these daughters of Eve; of the little work they do and the great amount of time they waste on flirtations and on their toilettes; of the alleged subversive effect they have in well-regulated ministries, and of many families whose peace is said to have been undermined by their dangerous proximity to staid and respectable men.

At any rate it appears that soldiers who have served their country have made good their claim to the coveted positions and both in Rome and in many provincial towns the edict has gone forth that the girls must go. Italian housekeepers hope that some will return to the many mistresses who sigh in vain for assistance in their households, but doubt whether after the short hours and independence of office life they will take kindly to domestic service or the long hours of shop work.

## DESIDES CHURCH TO WORK IN UNITY AND GOOD WILL

WINONA LAKE, Ind., May 19.—Hope that a spirit of unity and good will would prevail in a desire to work with other denominations in facing a common task, was expressed here today by Dr. Samuel S. Palmer, retiring moderator, before the General Assembly of the Presbyterian church.

Dr. Palmer said in part: "We have passed through the World War. We kept our churches going at home and for the most part away from home. The sacrificial spirit of the missionaries in the great war has opened doors of which we did not know. When some leading men in Asia were asked what effect the war was having on moral and religious ideas, they received such answers as these. All other religions in Asia must try to do something better for brotherhood. War proves that might is not right, but right itself always remains right. War reveals the real meaning of the Christian term righteousness and its relationship with sacrifice. God be merciful unto us and bless us."

The ignorance of children today regarding the teachings of the Bible is lamentable. When we teach our children not only in the Sabbath school but through the week about God, and therefore about justice and righteousness and love and duty, we shall then find the blessings of heaven upon the church in greater measure than we have ever known.

I trust that we shall hear also about the blessings of unity and good will in our church. No Presbyterian expects his denomination alone to conquer the world for Christ. He rejoices in the privilege of co-operating with others. We teach that there is but one church. I hope we are blessed with the spirit of unity and good will in our desires to work with other denominations in facing a common task.

"For the past seventeen years a permanent committee on church co-operation and union has been at work under the official instruction of the General Assembly and among other things has said that a committee should be appointed by the moderator to consider the whole subject of a co-operation and confederation and consolidation with other churches. As a result of the committee's work organic union with the Cumberland Presbyterian church was effected in 1905. At the last meeting of the assembly in Philadelphia the Welsh Calvinistic Methodist church was received into the Presbyterian church in the U. S. A. For the past ten years there has been a council of the Reformed and Presbyterian churches.

However great the blessings are that we have received as a church they are not an end but a means.

## "AMPHIBIOUS BOAT" SHOOTS THE SHOOTS IN NEW WAY

BRUSSELS, May 2.—An "amphibious boat," which is intended to obviate difficulties in Congo navigation entailed by the rapids, underwent a very successful trial here recently in the presence of the King of the Belgians.

It consists of two boats joined together by shafts. When rapids are reached the craft will hitch onto an overhead rail above them and will "shoot" the rapids suspended in the air, afterward taking the water again and proceeding as usual.

## MANY DELEGATES TO ATTEND CONFERENCE

(By the Associated Press)

MEXICO CITY, May 5.—Preparations are being made here for the entertainment of more than 1,500 delegates to the International Trade Conference which opens in Mexico City next June 20 and continues for six days. More than 1,000 delegates are expected from the United States alone. The Women's Chamber of Commerce of the United States has been invited to participate in the sessions.

Spanish, English and French will be the official languages of the meetings but the committees in charge assert German, Italian, Swedish and Norwegian exporters and importers will be well represented.

The program will include discussions of such subjects as Mexican credits and methods of sales and distribution, tariff reciprocity between Mexico and the countries with which it exchanges goods and products, standardizing weights and measures in the United States, Canada and Mexico and the exchange of Mexican-American scholarships.

## REVENUE FORCE WILL BE ENLARGED AT ST. LOUIS

(By the Associated Press)

ST. LOUIS, Mo., May 19.—The Intelligence Unit of the United States Internal Revenue Department, a branch of the department formed about two years ago to investigate infractions of the internal revenue laws, particularly those referring to income tax returns will materially

## HEALTH FOR WORKING GIRLS

Those Who Suffer and Are  
Unable to Work Need  
Helpful Suggestions

Springfield, Ill.—"I had periodic trouble with weakness, cramps and backache and I could not work. A neighbor recommended your medicine and I took four bottles of Lydia E. Pinkham's Vegetable Compound. I am now strong and well, able to work, and recommend your medicine to my friends."—ANNA RIMKUS, R. R. No. 8, Springfield, Ill.

Why will girls continue to suffer month in and month out as Miss Rimkus did when case after case is related where Lydia E. Pinkham's Vegetable Compound has removed the cause of the trouble and brought good health. For more than forty years this old fashioned root and herb medicine has been the standard remedy for such ailments, and has the record of having restored more suffering women to health than any other medicine.

If there is any complication about your condition you do not understand write Lydia E. Pinkham Medicine Co., Lynn, Massachusetts, in regard to your health.

## BUKER'S TWIN ALSO A RUNNER

(By the Associated Press)

BOSTON, May 19.—Ray S. Baker, the sturdy runner from Bates College, who surprised the sport world by winning the two-mile international race at the Penn Relay Carnival last month, in 9.25 2-5, is one of four brothers who have been active in Bates College athletics during the past five years.

In reviewing his work after the relay victory, trainer Ryan, of Colby College, stated that Baker's possibilities as a distance runner were well-known to close followers of distance running who have seen him perform during the past two years. He had one fault which prevented him from coming to the front much more quickly, his early pace was far too slow. But now that he has learned to go out and follow a faster pace and with the help of more competition, Baker seems to be capable of a far better two-mile performance than he showed at the Penn Relays.

Baker has a twin brother Richard (captain of the Bates College track team) who, also is some runner. Richard is the present Maine intercollegiate half-mile champion, which honor he won in two minutes flat at the championships held in Lewiston last year and he should win in his specialty again this year.

in better time. He is capable of running the half-mile in 1.57.

### Good Records

The Baker twins cut quite a swath in cross-country running in New England. On account of their fine work last fall Bates College won the Maine State Cross Country championship and finished second to Massachusetts Institute of Technology in the New England title run held in Franklin Park, Boston.

In the Maine run, Ray finished first with Captain Richard second over the Bowdoin college course at Brunswick and in the New England title run Ray won first place and Richard finished seventh in a field of about 100 starters.

Ray and Richard B. Baker look so much alike that even their closest friends cannot tell them apart and about the only one in the world that knows when he is addressing Ray without first asking is Richard.

They are natives of New Hampshire and prepared for college at Mount Hermon. Richard is a senior at Bates and is preparing to enter the ministry, while Ray is a junior and preparing for the medical profession. They are both first-class students and filled up to the brim with confidence in themselves.

Only men and mules and women refuse to listen.

NEARLY 1000 ESTATES TO BE GIVEN AWAY

(By the Associated Press) VIENNA, May 1.—Nearly 1,000 estates or parcels of land located in 210 communities have been set aside by the government for allocation to settlers under the land expropriation act.

They are lands that have passed from cultivation into shooting preserves or parks, or arable lands which the owner is unable to place under cultivation. In the latter case compensation is made but in the former instance the land is confiscated.

Another drawback to a woman in politics is that every time she tries to look intellectual she only looks grim.

## Notice of Reward

STOLEN: Motor motor and radiator cap off Nash car at Normal Monday night; will pay reward for recovery of same.

A. B. COON

## PROMINENT NORMAN LADY PASSED AWAY

Mrs. Vinnie Buchanan, wife of dean J. S. Buchanan, passed away at St. Anthony's hospital in Oklahoma City on Sunday, May 15, at 1 o'clock a. m., following an operation.

The deceased was born in Indiana in 1876, and in 1881 moved with her parents to Texas, where she was educated in Kidd Key college. She came to Oklahoma in 1894 and taught music in the Central State Normal at Edmond, where she met Dean Buchanan who was then professor of history in that institution. The friendship between the two ripened into love, and the couple was married in 1896, the year Dean Buchanan came to the University of Oklahoma as dean of the College of Arts and Sciences and professor of history.

Besides her husband, Mrs. Buchanan leaves three children, Frances, James and William. A daughter, Mary Margaret, aged four years, died about six years ago. She also leaves two brothers and three sisters all of whom were here to attend the funeral services. These include Judge C. A. Galbraith of Ada, Harry Galbraith, Mrs. W. R. Linley, Mrs. Maggie Orr, all of Terrell, and Mrs. A. M. Akin, of South Houston, Texas.

The deceased was a member of the Presbyterian church, a member of a number of the leading clubs of Norman and was vitally interested in the welfare of the community. She was devoted to her home, striving to make it a place where love and happiness dwell. Her unselfish devotion to the cause of others won a place for her in the hearts of all who knew her.

The funeral services were held at the Presbyterian church Monday afternoon, May 16, at 4 o'clock, conducted by Rev. T. H. Aszman.

During the day of the funeral the flag at the university was at half mast and school was dismissed at 3 o'clock. The floral tributes were the most beautiful ever seen in Norman.

The above article was taken from the Norman Transcript for Tuesday May 17. Judge and Mrs. C. A. Galbraith returned to their home here yesterday from Norman.

Ladies get you a modern turfing needle at the Oriental &amp; Novelty store, 225 E. Main. Free demonstration all week and one beautiful hand painted picture value \$10.00 given free with each needle sold, price \$1.25. 5-12-6td\*

## LODGES

R. A. M.—Ada Chapter No. 26 Royal Arch Masons, meets the second Tuesday night in each month—A. Stauffer, H. P.; F. C. Sims, secretary.

K. T. M.—Ada Commandry No. 16 Knights Templar Masons meets the third Friday night of each month—M. F. Manville, E. C.; F. C. Sims, secretary.

B. P. O. E.—Ada Lodge No. 1275 meets second and fourth Monday nights in each month—H. Claude Pitt, secretary.

MODERN WOODMEN—Lodge 10954 meets second and fourth Saturday nights of each month, at I. O. O. F. Hall—J. E. Russell, clerk.

1. O. O. F. Encampment No. 1 meets every Tuesday night—L. L. Lewis, C. P.; H. C. Evans, Scribe.

I. O. O. F.—Ada Lodge No. 146, regular meeting every Thursday—A. B. Martin, N. G.; H. C. Evans.

ADA COUNCIL No. 625 U. C. T.—Meets first Saturday night each month at I. O. O. F. hall—W. H. Holmes, Sec-Treas.

A. O. U. W.—Lodge No. 40 meets first and third Tuesday nights of each month at Ada Business College—J. B. Emory, secretary.

A. D. COON

## 2,000 SALESMEN TO MEET FRIDAY

Approximately 2,000 traveling salesmen will meet in Oklahoma City for a two days' convention of the United Commercial Travelers Friday and Saturday, according to an announcement Tuesday night. Salesmen will begin gathering here Wednesday and Thursday and it is expected that all will be present for the opening session at 9 o'clock Friday morning at the Elks' hall.

Headquarters will be maintained at the Huckins hotel and Friday morning will be turned over to registration, the issuing of passes to theatres, ball games, dinners and receptions to delegates. The grand council will meet at 1 o'clock and adjourn at 4:30 o'clock, at which time the convention will go to Belle Isle, where dinner will be served. The park pavilion has been chartered for the evening and there will be dancing from 8:30 o'clock until midnight.

Saturday morning's meeting will convene at 9 o'clock and the year's business affairs will be disposed of. Officers elected and installed and the program of addresses heard. The convention will adjourn at 1 o'clock and the rest of the afternoon will be turned over to entertainments.

A shopping tour for women visitors in Oklahoma City has been arranged for Monday, following which the guests will be taken on a tour of Packington, the factories and industrial plants and the capitol, where luncheon will be served from 1 to 2 o'clock. At 3:30 o'clock theatre parties will be given and those who care to will go to the ball game.

In response to action taken by Chinese women's clubs the Canton-Samshui Railway has sanctioned a plan to employ girls, while the Canton Telephone Company also is planning to include women in its working staff.

N. W. Glispie, manager of the Katy rooms, was arrested this morning and is being held in jail pending the arrival of an officer from Coalgate, where he is said to be wanted on a bogus check charge.

## CHINESE WOMEN SEEK TO SECURE EMPLOYMENT AGAIN

(By the Associated Press) CANTON, April 6.—(Delayed)—Perhaps as an outcome of a movement started carry this year by the Chinese women's organizations in Canton to open avenues of employment hitherto closed to women, the National Assembly of the Southern government has given a job to a girl. This is a clerkship and the first in Canton, if not in all China, to be given to a woman. Miss So Kan, the appointee, has been assigned to a post in connection with publication of parliamentary records.

## DISCUSS MINGO TROUBLE

(By the Associated Press) WASHINGTON, May 19.—Conditions in Tug river section of West Virginia were discussed at a conference today, between Secretary Davis and John L. Lewis, president of the United Mine Workers of America. An official announcement was withheld, but it was indicated that Mr. Davis might attempt to settle the difference between the miners and the operators which culminated in fighting a week ago.

Mrs. Lucy Copeland was released on bond today. She has been held in custody by officers here since she was bound over for trial on a charge of murder, a month ago.

## PEOPLE RESPONSIBLE FOR BAD CONDITIONS

CHICAGO, May 18.—Our own selfishness has been largely to blame and the great majority of the people of the United States are in a degree responsible for the conditions with which we must now contend relative to the Japanese question, Earl S. Parker said here today in speaking before the World Alliance Congress on Reduction of Armaments.

"Instead of humble spirits and a realization of the responsibilities which are inseparable from great opportunities we have been proud vain, and inclined to regard as our inferior, all those of a different race or religion," Mr. Parker said.

"We have set ourselves up as superior beings, not in the same manner as the Germans, but in a way that was almost as offensive. Our religion, our government, our economic system, our schools, everything that is ours, we admit are superior to anything in the whole wide world, and if others doubt it we are ready to attempt to prove it in a manner that usually earns us their suspicion and distrust.

"So long as we sail under the banner of a Christian Nation, the people of other countries are going to judge Christianity by the way they see us exemplify it nationally. This attitude of the people as a whole, has made it easy for a small group, to make of this question, a vehicle, for the accomplishment of their own selfish purposes.

The presence of the comparatively small number of Japanese which are now in California, gave no just cause for complaint, but it has been made the basis of a race prejudice appeal. According to the United States Census Report of 1921 the Japanese in California number about 70,000 and constitute 2.2 percent of the population. They own or lease about 450,000 acres of land out of a total of 99,000,000 acres. This represents .4 of one per cent of the total land area and 1.6 per cent of the available farm land.

Their industry and ability is attested by the fact that they produced from one and six-tenths per cent of the farm land more than thirteen per cent of the agricultural products of the state. Their respect for law and order is shown by the fact that their crime record is lower than a like number of any other nationality, including the Americans.

If equally distributed over the state, there would be more than two square miles of territory for every Japanese and with the voluntary stopping of the coming of picture brides by the Japanese government last year, the departures promise to be greater, for the fiscal year ending next June, than the arrivals.

Some of the factors that make for a solution of this question are: The children born here are regular attendants at the public schools where they have the respect of the teachers and their fellow students. They are anxious to learn American ways and are proud of the fact that they are to be allowed the privileges of citizenship.

A realization of what the trade between the two countries means in dollars and cents. The goods purchased from us by Japan last year (\$464,000,000) kept an army of 206,000 American workmen busy every working day in the year at a daily wage of \$6.00.

A regard for the scriptural injunction, to first cast the beam from our own eye ere we attempt to pluck the mote from the eye of another. Many good people who mean well, have in the discussion of this question, confined themselves almost exclusively to a recital of the mistakes of Japan and the Japanese people, ignoring almost altogether the fact that we have to a large extent been her schoolmaster.

"Let us refuse to be a party to the nullification policy of the political gangsters of California. Let our treaty with Japan and all other nations be kept in letter and in spirit. Let us prove our right to the great moral leadership of the nations by absolutely fair and impartial treatment of all the people of all the nations who have found refuge in this country.

"In this way and in this way only will we be able to lead Japan and the other nations who need our help in the path which leads to better things."

## Walter N. Wray Buys Mr. Coleman's Interest in Ada Motor Comp'y

Walter N. Wray yesterday bought James M. Coleman's one-fifth interest in the Ada Motor company at 226 East Main, and is now the sole owner of the business.

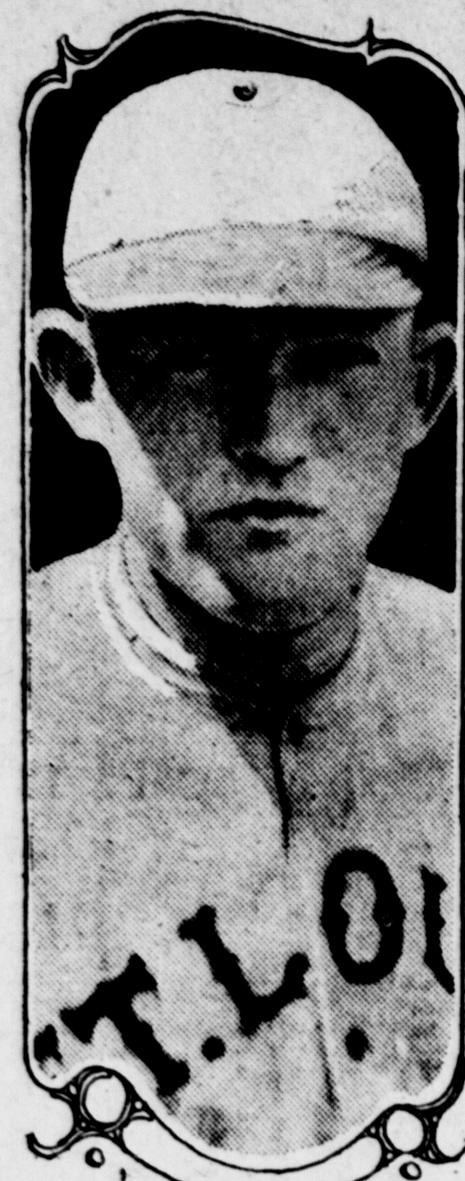

The two men had conducted the business as a partnership since February, 1919, when they came to this city from Missouri. During the two years they have prospered and built up a wonderful business, both with their Dodge agency and the garage work, which is handled in connection.

Mr. Wray announces that the business will be conducted along the same lines as those which have proven to be successful during the past two years and all of the mechanics and salesmen will be retained in the service.

It is probable that Mr. Coleman will return to St. Joseph, Mo., and take up his old position as service manager for the Farmer Auto company. During his residence here he has made many friends and has proven himself to be a business man of the highest class.

## A MONUMENT TO THE CHEROKEES TO BE UNVEILED

The ceremonies of the unveiling of the monument to General Stand Watie, only Indian Brigadier General in the Confederate army, will take place at the old Cherokee Capital, Tahlequah, Oklahoma, June 6, at 11:15 a. m.

This memorial is the work of the Oklahoma division of the U. D. C. and pays a long neglected tribute to this brave Indian hero of the Confederacy.

A splendid program has been arranged with Hon. W. W. Hastings as chief speaker.

General Watie was one of Oklahoma's great historic characters and this first memorial work of the Oklahoma division of the U. D. C. should be a matter of interest and pride to every citizen of the state.

A great attendance is hoped for.

Mabel W. Anderson, Pryor, Okla. (Chairman.)

Mrs. T. C. Harrill, Wagoner, Okla.

Mrs. I. H. Harness, Div. Pres. (Committee.)

Program

Medley of Southern airs—Band. Welcome on behalf of the local U. D. C. chapter and the city of Tahlequah—Rev. Joe Thompson.

Roll call of chapters—Mrs. I. H. Harness, Div. Pres.

Introduction of Mrs. Mabel Anderson, chairman of the Monument Committee—Hon. W. W. Hastings.

Response—"Our Pledge and Its Fulfillment"—Mrs. Anderson.

Unveiling—Miss Gladys Anderson, Dixie Band.

Address—"Gen. Watie," Hon. W. W. Hastings.

Star Spangled Banner—Band.

Benediction—Mrs. G. B. Hester.

## CELEBRATION OF JEFFERSON WAS GREAT AFFAIR

CHARLOTTESVILLE, Va. May 18.

—While citizens in many cities were celebrating the 178th anniversary April 13 of Thomas Jefferson's birth, Jefferson himself made an appearance and was seen chatting with visitors on the broad verandas of his beloved Monticello.

The Marquis de Lafayette and other gentlemen in powdered periwigs were among the callers, and after showing them about the grounds and offering them refreshment in tall, mint covered tumblers, Jefferson invited his guests to step into a colonial stage coach which immediately lumbered away toward the University of Virginia.

This unusual ceremony was part of the University's Founder's Day celebration, Jefferson founded the historic old institution at Charlottesville one hundred years ago and its officials decided that April 13 was the most appropriate time to record the activities of their father and sponsor in moving picture films.

William I. Morton, secretary of the Charlottesville and Albemarle Railway Company took the part of Jefferson and Dr. William H. Goodwin, associate professor of surgery of the university's department of medicine, portrayed Lafayette.

The sight of colonial gentry in tall hats, form-fitting doublets and satin knee breeches come as a surprise to several hundred Virginians who make an annual pilgrimage to Monticello to decorate Jefferson's grave.

Souvenir hunters who chipped away large portions of the original tomb stone fashioned under the direction of Jefferson, himself, have again been busy and the new stone erected by the government is beginning to show signs of their vandalism. Frank M. Randolph, of Keswick, a member of the Jefferson Association, and one of Jefferson's oldest living descendants, placed a wreath of roses and green bay leaves at the grave.

## ADA INVESTMENTS AS GOOD AS THE BEST

There are always people who are looking for a safe place to put their money to work in some investment that will net them a good return on their money, and it is claimed there are just such people here in Ada.

First every investor, before he or she puts their money into some project, should have assurance of the security as to principal and return.

Public utility investments in a company well managed by men of high standing, who have specialized and devoted their lives to the careful operation of public utilities for years with proven success, such as the "North American Light & Power Co." are as safe and as sound as "THE ROCKS IN THE SHIFTING SANDS OF PRESENT BUSINESS CONDITIONS."

The North American Light & Power Co., under the general management of the William A. Baehr, organization, a firm that has specialized in the engineering, financing, construction and careful operation of public utilities for a great many years, has recently adopted the customer ownership plan and is now offering to the public in the communities which it serves, its 7 per cent cumulative preferred shares at \$87.50 with par value of \$100.00, thus, making it an investment to yield 8 per cent. Dividends are paid quarterly.

The shares are free from normal income tax and we maintain a market, thus enabling any one to get his or her money out upon a few days notice in case they should see fit for compelling reasons to do so. We offer to those who do not wish to pay the full amount in cash, a partial payment plan of \$5 down and \$5 a month per each \$100.00 share. In this way a great many people are saving a certain sum for their children or for themselves and with little strain on their immediate financial needs. We will also take in exchange at the present market value, Liberty Bonds which are only netting from 3 1/2 to 4 1/2 per cent.

The North American Light & Power Co. is a large organization with many properties operating in many states, just as the Oklahoma Light & Power Co. here in Ada.

We are serving the public and industries with a service that has become in this progressive age a necessity. Can you imagine what would happen if Ada and other and larger cities were to be without electrical power? The factories and all the community would be at a standstill. Electricity is essential, not only to present use, but to the growth of any civilized community.

So our business continues firm in the face of any conditions, be they good or bad.

A great many people have stopped to realize the full meaning of public utility. "Utility," something to be utilized.

"Public," for everybody and just as much a part of any community as its schools, churches, libraries, sewers sidewalks and streets. If it becomes necessary to expand, lay new gas pipes, new electric light and power lines to be extended, street car lines to be built to meet the public demand for service, the same must be done as when new sidewalks and sewer pipes are put in, namely, money must be borrowed for the work. The utility must go out and get the money to buy the material and pay the laborer. It is just the same as a city which goes to the bank to borrow money. If its credit is good it gets a loan. If it isn't it doesn't. If it doesn't, the new improvements are not built. It is just the same with the utility. If new additions to plants and extension of facilities are asked for, or become necessary due to the growth of the city, the utility must go out and borrow that money. If it cannot show that it is entitled to borrow money because of its financial soundness and ability to pay

for the work. The utility must go out and get the money to buy the material and pay the laborer.

## CABARET SINGER NOW OPERA STAR

Miss Yvonne d'Arle.

Miss Yvonne d'Arle but recently graduated from Broadway amusement "palaces" to the Metropolitan stage, where she promises to be among the first grand opera stars.

the going rate of interest, the result is the same as with the city, the extensions and improvements are not made and the public doesn't get the increased service. But of course where the public lends money it is entitled to an attractive return on same. Thus they benefit in two ways, directly from the dividends paid on the money loaned and indirectly from better and increased service.

Remember that any communities biggest single investment is in its utilities, its electric, gas, electric railways and telephone equipment.

Remember also that public utility services are second to only the two cent postage stamp as the cheapest commodity purchasable by any man, woman or child.

They are servants in the home. They light the lamps, furnish the heat, wash the dishes, fill the bath tub, run errands, call the doctor or the fire department do the washing and ironing as well as countless other jobs, to industry they are the "silent partner" doing the greatest service at least expense.

Communities are known by their utilities. They tell the stranger within in the gates more about a city than can be spoken in words.

The public is now offering to the public an opportunity to become a financial partner and part owner in that company which is a part of your own community and serving you and the businesses of Ada with a daily necessity, the "North American Light & Power Co."

Write us a letter or call us by phone and we will be very glad to submit for your approval and personal inspection all the detail and any information you may desire concerning our investment. Also we will submit letters from various business men and men of influence who have made a thorough investigation of our financial condition and to whom we will gladly refer you.

This is not Oil Speculation, but a sound conservative investment, yielding 8 per cent on your money and provides all the safety of principal demanded by the most conservative business men.

Call or address the "Oklahoma Light & Power Co." Attention, General Manager, Dept. Phone 70.

## RARE PHOTOGRAPHS WILL BE EXHIBITED

(By the Associated Press)

PARIS, May 19.—An exhibit of photographs of a great number of notable buildings in the United States, public and private, constitutes an unusual feature of the annual exhibition of the Societe des Artistes Francais, popularly known as the Old Salon. Photographs of more than 300 exhibits from the leading architects occupies a special section in the exhibition, a thing never before done in France.

The American collection was organized by a committee appointed by the American Institute of Architects.

Some of the best known buildings in America are shown. There are a few models, one of which is that of the Woolworth building in New York, which quickly attracts the eye because of its typical American design. Other New York buildings shown in photographs are the Custom House, the West Street building, the Bush Terminal building, the Army Supply Base in Brooklyn; the Equitable buildings, the Municipal Office building and numerous other office structures and some apartment houses.

Numerous public and office buildings in other cities are shown such as the City Hall at Waterbury, Conn.; the Detroit Evening News building, the Bell Telephone building at Philadelphia; the Union Trust Company building at Washington, D. C.; the Metropolitan Bank building in Minneapolis; and that of the First National Bank in Boston.

Public buildings are represented by photographs of the Pan American building at Washington, the New York Public Library, the Connecticut State Library, McKinley Birthplace Memorial; the Supreme Court building at Hartford, Conn.; the Indianapolis Public Library, the United States post offices in New York, Denver and the state capitals of Wisconsin and Minnesota.

The ecclesiastical architecture is represented by photographs of the Chapel of the Intercession and the retables of St. Thomas' church, both of New York; the chapel at West Point; the First Congregational church at Riverside, Cal., and St. Catherine's church of Boston.

Several buildings at Wellesley, Harvard and Princeton are among the educational buildings.

American architecture is further illustrated by photographs of the Century, Harvard and University Clubs of New York; the County Club of St. Louis; the University Club of Chicago. Several hotels and theatres and typical American stores and manufacturing buildings are represented. Notable American residences also are portrayed.
